#29555	Stephen Halbert	**Feedback** Removal of video streaming throttling restriction of 700 Kbps in EU for all 3UK subscribers. Applies to all customers such as contract on advanced or essential plans, legacy plans or PAYG add-ons. Removal of tethering block for 3UK subscribers in EU for all contract handset and SIM only customers All customers can use all of their data allowance for tethering if they wish to in UK and EU while roaming. Removal of domestic tethering restriction for 100GB and AYCE plans, essential and business (restriction was applied @30GB for advanced and 40GB on business) Impact: Poor customer experience and delayed resolution	The **Internet** script has been added. https://three.lucidcx.com/uad/index.jsp#ref=20-8328435&l=uad&d=Apple/iPhone%207&s=Internet_New&steps=,q458190,a458193,q458197,a458203,q459510	- All devices	No further action required.	05.09.2018
